

Emilija Miladinovic

Scrum master
Full-Stack Developer - Junior

I started in the graphic industry and later moved across roles and fields, but one thing has stayed the same: I care about people and how they work together.

I learned to code to do the work I enjoy, and I use Agile as a toolkit—adapting Scrum, Kanban, or XP to fit the team, not the other way around. I grew up between cultures and later moved to Sweden, so adapting is natural to me.

Those experiences taught me to value differences, listen first, and create an environment where people can do their best—sometimes that's a solid retro, sometimes it's as simple as bringing cookies.

For me, that's what Agile is: trust, clarity, and small habits that help teams deliver.

Methods & Ways of Working

- » Scrum, Kanban and Agile methodologies (including SAFe)
- » Team facilitation, leadership, conflict resolution and continuous improvement
- » Removing blockers and supporting the team to deliver
- » Agile ceremonies: daily stand-ups, reviews, retrospectives and other events
- » Sprint follow-up and PI planning (incl. capacity planning)
- » Agile coaching and KPI work: define, track, analyze and drive actions

Technical Skills

- » **Front-end:** HTML5, CSS3, SCSS (Sass), JavaScript, React, Bootstrap
- » **Back-end:** Python, Django (including Django ORM), MySQL, RESTful APIs (Django REST Framework)
- » **UI/UX:** Figma, modern design libraries
- » **Graphic Design:** Adobe InDesign, Adobe Illustrator
- » **Tools & Practices:** Git, GitHub; responsive, user-centric web development
- » **Agile & Collaboration:** Jira, Confluence, Miro (Scrum, Agile workflows)

Business & Collaboration

- » Negotiation in client and supplier interactions
- » Close client collaboration and delivery of customised solutions
- » Stakeholder communication, expectation management and presentations
- » Creating a collaborative and supportive learning environment

Other

- » High emotional intelligence and focus on healthy team dynamics
- » Team player with natural leadership
- » Structured, reliable and easy to work with

Education

Professional Scrum Master™ I (PSM I)

Scrum.org,
August 2022.

Scrum Fundamentals Certified (SFC)

SCRUMstudy - Accreditation Body for
Scrum and Agile,
March 2022.

Letter of recommendation

Emilija Miladinovic, 900112-3687, has been employed at Volvo Car Corp., Organization's nr. 556074-3089 with address Scheelevägen 23, 223 63 Lund from 8th of May until 8th of October 2023.

She has had the position as Agile Scum Master for one of our key teams in R&D who are developing the next-generation software platform for SPA2.

She has led a high-performance, diverse team that has been located at different sites. Emilija has proven herself to be a good and appreciated leader who gets the most out of people working close to her. With Emilija in the lead, the team has continuously delivered on time and with great quality.

In her assignment, she has worked according to our Agile SaFe methods where a Scum Master is expected to

- o Help the team embrace, adopt, and apply agile principles and practices
- o Support the team's agile ways of working like SAFe, Scrum, Kanban, Definition-of-Done, WIP limits, etc
- o Facilitate the team's progress toward team goals by focusing on improving performance in the areas of quality, predictability, flow and velocity as well as staying focused on the team's iteration goals
- o Lead team efforts in continuous improvement by helping the team in retrospectives and take responsibility for their improvement actions
- o Facilitate Problem Solving, including Root Cause Analysis and Lessons Learned
- o Facilitate all team meetings like the daily stand-up, iteration planning, demo and retrospective
- o Support the Product Owner in their efforts to manage the backlog with respect to priorities and scope
- o Eliminate impediments by removing hinders beyond the team's ability so that the team can remain focused on achieving the objectives of the iteration
- o Help the team broaden its competence and manage interpersonal conflicts/challenges/opportunities for team growth
- o Communicate with management and outside stakeholders to protect the team from uncontrolled injection of work
- o Help the team operate as an effective "team on the train"
- o Collaborate with other ScMs to learn and improve my profession
- o Facilitate preparation and readiness for ART ceremonies like PI Planning, System Demos and the Inspect and Adapt
- o Support the team develop techniques for work breakdown, estimating, planning and follow-up

In 2023, Volvo Cars launched a cost-saving program with changes in the organization. I'm sad that we cannot offer Emilija an extension on her temporary employment.

I would like to give Emilija the best recommendations.

To Whom it May Concern,

I am writing to recommend Emilija Miladinović for any position that would benefit from her skills in Scrum management and team facilitation. I have had the opportunity to work alongside Emilija for the past half year at Volvo Cars, where she has proven herself to be a diligent and reliable Scrum Master.

Emilija has demonstrated a good understanding of Scrum methodologies and Agile principles. Her preparedness for every sprint, daily stand-up, and review meeting has been commendable, and her approach has positively impacted the effectiveness of our team. Emilija brings a sense of organization and structure to our projects, enabling us to meet deadlines and deliver on expectations.

Emilijas dedication to her role is unquestionable. She takes her responsibilities seriously and performs them with great care. Her communication skills are good, and she has been effective at disseminating information within the team.

Emilija is consistently eager to improve and grow. She takes her professional development seriously, taking any opportunity to enhance her understanding of her field. Given her hard-working nature and appetite for learning, I am convinced she will continue to be a valuable asset wherever she works.

In summary, I would recommend Emilija Miladinovic to any organization in need of a competent and reliable Scrum Master. Her commitment to her work makes her a good choice for any such role. Should you wish to discuss Emilija's qualifications in more detail, please do not hesitate to contact me.

Sincerely,

Einar Vading
Embedded Software Developer & Engineering Scrum Master
